SELF-EMPLOYMENT INCOME VERIFICATION

What is Self-Employment?

Self-Employment is the act of engaging in a trade or business except as an employee. An individual is NOT self-employed if performing services that can be controlled by an employer. Source of income and individual activity from which income is generated determines if it is self-employment income.

How is self-employment income used to determine eligibility?

During the process of determining household eligibility, all gross income is evaluated to determine eligibility. In addition, self-employment status for applicants and participants is also verified. Income from self-employment divided by the number of child care hours requested must equal the current Federal/State Minimum Wage.

What documents will I need?

The following list of documents, are used to verify earned income. It is the responsibility of the applicant/participant to provide verification of all income used to determine eligibility.

- Bookkeeping records
- Tax Returns –must show proof of filing
- Receipts for ALL allowable expenses
- Pertinent lease agreements [building, vehicle, chair (cosmetology), etc.]
- Self-employment Income Verification form
- Contracts [construction, etc.]
- Bank Statements [personal & business] and cancelled checks
- Signed time sheets and receipt of payroll, if you have employees

The following list of documents, are used to verify unearned income. It is the responsibility of the applicant/participant to provide verification of all income used to determine eligibility. *You may use the Unearned Income section on page 3 of the application as a worksheet.*

- Attorney statements
- Cash income records
- Child Support receipts
- Parenting Plan – court filed
- Retirement Award letter
- Education/Training Award records

Should an error occur during the income eligibility process, regardless of who made the error, the applicant/participant may be fully responsible for any overpayment and may have to complete an agreement to pay all or part of any monies they receive as part of the Best Beginnings Child Care Scholarship program. [Child Care Policy 6-8; page 1 of 4]

What expenses are allowed or not allowed?

Allowed business expenses are subtracted from the gross receipts to determine taxable gross income. Allowable expenses must directly relate to the production of income. Receipts must be attached to be counted.

Not Allowed business expenses include those derived from capital investments:

- Depreciation
- Amortization
- Non-sufficient Fund charges
- Credit Card late fees
- Business start-up costs
- Personal & entertainment expenses
- Payments on principal portion of loan payments
